Dear Parents / Carers,

My School Website

The My School website for 2012 has just been released. (www.myschool.edu.au).

The website provides profiles on each school, including ours, and contains information about the school such as numbers of students and staff, attendance rates and results from the national literacy and numeracy tests. The website also includes information about school finances. It shows comparisons between our school’s NAPLAN results and those from schools serving students from statistically similar backgrounds across Australia – we can see how our school is performing against other schools. From this, we can see in what areas our school is doing well and where we need to look to make improvements. The website also shows student gain information, so that we can acknowledge how our students have progressed over time.
